La Révolution de l'expresso

EX3

Modular by design

La révolution de l'Espresso

La toute nouvelle machine à espresso Crem - EX3 - a été soigneusement conçue. Non seulement d'un point de vue technique, mais aussi en tenant compte d'une approche 360°, ce qui nous a finalement conduit à cette nouvelle ligne au sein de la gamme Crem.

L'EX3 est une machine à espresso professionnelle attrayante et extrêmement polyvalente. Doté d'un design intelligent, elle peut être facilement personnalisée et fabriquée grâce à la combinaison d'un large éventail d'options différentes, à la fois externes (nombre de groupes, couleurs et finitions, éclairage, etc.) et techniques. Ainsi, l'EX3 convient à tout type d'entreprises, qu'il s'agisse d'un café indépendant ou une chaîne nationale de cafés.

L'ergonomie et l'expérience utilisateur ont également été au cœur de ce projet. Suivant les propres normes de performance de Crem, l'EX3 dispose de technologies innovantes et hautement testées afin d'offrir un rendu en tasse exceptionnel.

L'EX3 a reçu les prix IF DESIGN AWARDS 2020 et les Red Dot Industrial Design Awards 2020.

Bref

1. Design optimisé et élégant ligne
2. Large gamme de technique personnalisable Options
3. Crem hydraulique hautement testée, y compris:
 1. 1/2 rotatoire Boutons
 2. Toucher cool Baguettes
 3. Amélioration du drainage solution
4. Facilité d'entretien
